WORK EXPERIENCE

Frontend Developer

Fsoft Pham Van Bach

Aug 2023 – Oct 2024

Position: Worked in a 25-member team for a Thailand-based insurance client.

Description: Developed and maintained a mobile "super app" for insurance agents, supporting customer management & lead recommendations, personal and team KPI tracking, subordinate agent management, sales consulting tools, participation in marketing campaigns, and internal news updates. The system helps standardize workflows and optimize the business performance of agents.

- Proposed and implemented technical solutions based on customer requirements.
- Developed UI using React Native following a trunk-based workflow, reviewed code reviews, wrote tests (Jest), and estimated tasks.
- Reviewed PR and assisted with code merging in the absence of the team lead.
- Supported onboarding of new team members.
- Communicated directly with client-side BAs and testers to clarify requirements, discuss technical solutions, and address issues during development.

Technologies Used: React Native, HTML, CSS, Typescript, Jest-cucumber

Frontend Developer

Fsoft Pham Van Bach

Jun 2022 – Jul 2023

Position: Worked in a 22-member team for a UAE-based financial services client.

Description: Developed and maintained a credit recommendation system suggesting loan options and promotional offers to end users based on facial recognition and ID card scanning. Delivered across four platforms, including web portals for clients and partners, as well as SPA web and mobile apps for end users.

- Proposed and implemented technical solutions based on customer requirements during phases 2 and 3 of the Project.
- Developed UI using ReactJS & React Native, reviewed code, wrote unit tests (Jest), and estimated tasks.

Technologies Used: React Native, ReactJS, Redux, HTML, CSS, Typescript, Antd, Jest

Fresher

Fsoft Academy Hoa Lac

Apr 2022 – Jun 2022

Description: Participated in a React Native fresher program to meet the requirements for official employment at the fintech division of FPT Software Pham Van Bach.

- Practiced React Native programming and completed tasks assigned by the mentor.
- Supported and shared knowledge with other classmates during the learning and working process.

Technologies Used: React Native

Frontend Developer**Startup Hundr Tech****Mar 2021 – Jan 2022**

Position: Worked in a team of 3–5 members (depending on the project) for Japanese clients.

Description: Migrated the web system's UI from legacy technologies (HTML/CSS/jQuery) to ReactJS, focused on improving performance, code reusability, maintainability, and scalability.

- Converted UI based on tasks assigned in Jira; proposed and implemented suitable technical solutions.
- Developed UI using ReactJS & bootstrap, reviewed code.

Technologies Used: ReactJS, HTML, CSS, Typescript, React-Bootstrap

Collaborator**Startup AseanTech****Oct 2018 – Jan 2019**

Description: Developed a mobile application on the Android platform that converts MP4 videos from normal format to cartoon-style effects (cartoonize).

Technologies Used: Java (Android), XML

Intern**Fsoft Academy Hoa Lac****Jun – Sep 2018**

Description: Internship as part of the university education program. Built and optimized a database system to manage and query information for nearly 5,000 students.

Technologies Used: Java, SQL Server

EDUCATION**Hanoi University of Science and Technology****Sep 2015**

- K60, School of Information and Communication Technology, majors Information Technology
- GPA: 2.51
